

The ultimate scientific breakthrough for hair loss.

Stem Cell Hair Growth Factors can increase hair growth by over 95%.

For over 40 years Advanced Hair Studio has pioneered many major breakthroughs in hair replacement and restoration, but nothing equals the latest and ultimate breakthrough for hair loss. Now, as the result of over 20 years of scientific work by world leading bio-scientists, including thousands of cell research projects, Advanced Hair Studio are proud to announce:

“Stem Cell Hair Growth Factors – a world first in the treatment of hair loss and the most significant breakthrough ever in this field”

STEM CELL HAIR GROWTH FACTORS™

How Stem Cells can regrow hair?

Stem cells have the ability to self-renew or multiply, meaning they can repair and replace tissue in the human body. In other words, stem cells have the power to heal and in the case of Advanced Hair Growth Factors, the ability to increase hair growth by over 95%.

This program is equally effective on both men and women suffering from hair loss.

33 YEAR OLD MALE: BEFORE

35 YEAR OLD FEMALE: BEFORE

AFTER 4 MONTHS

10 week at-home treatment program.

The Stem Cell Hair Growth Factors program is revolutionary in a number of ways, and one of the truly great benefits is that it has been designed for easy self application at home.

The 10 week program requires micro-needling and application of the formula just once per week with bi-weekly applications of hair serum. Simple, easy and effective.

Starting your Stem Cell Hair Growth Factors program.

To assess your suitability for the revolutionary Stem Cell Hair Growth Factors program you need to make an appointment to see a consultant at Advanced Hair Studio. Your consultant will explain the complete program to you including calibrating the needle to the correct depth for your scalp.

Call now to make an appointment to see an Advanced Hair Studio consultant.
